JAGUAR

INTRODUCING JAGUAR HERITAGE PARTS

Jaguar Heritage Parts provides premium support for Jaguar lovers who want Genuine Parts to keep their car in the best, most original condition. The Jaguar Heritage Parts programme is the definitive resource for parts for Jaguar and Daimler vehicles that are 10+ years out of production.

We provide Genuine Parts for a wide variety of Jaguar and Daimler Models including the Daimler Limousine up to 1992, the XJ Series 3 (6 and 12 Cylinder), XJS Pre-Facelift and Facelift, XJ40 (XJ81) (6 and 12 Cylinder), the X300 (6 and 12 Cylinder) and the XJ8 (X308). Parts for Jaguar E-type, MK2, Daimler V8, S-type 1963-1968, 420, MK10 and earlier XJ6 and XJ12 Series 1 and 2 are also available. Parts for XK8 will be included in the range from 2015.

100% GENUINE PARTS, 100% JAGUAR

We're proud of our past, because it has shaped our future. There is nearly 100 years of history behind the Jaguar brand, that's almost 100 years of knowledge and experience that we put into each and every part that bears our name.

Now, as part of Jaguar Land Rover, we have access to the highest levels of technical knowledge ensuring that each part is manufactured to engineering excellence. All parts are 100% Genuine, making them the premium choice for Jaguar owners who want to ensure their car stays 100% Jaguar.

So the best way to protect the legacy of your classic Jaguar is by using our Genuine Parts.

JAGUAR HISTORY

1935

SS Jaguar 100:
The world's first
affordable 100mph
sports car

1948

The XK 120 is
unveiled - a
car even faster
than its name
suggested

1951-1957

Jaguar wins
Le Mans 5 times
with C and D-type

1961

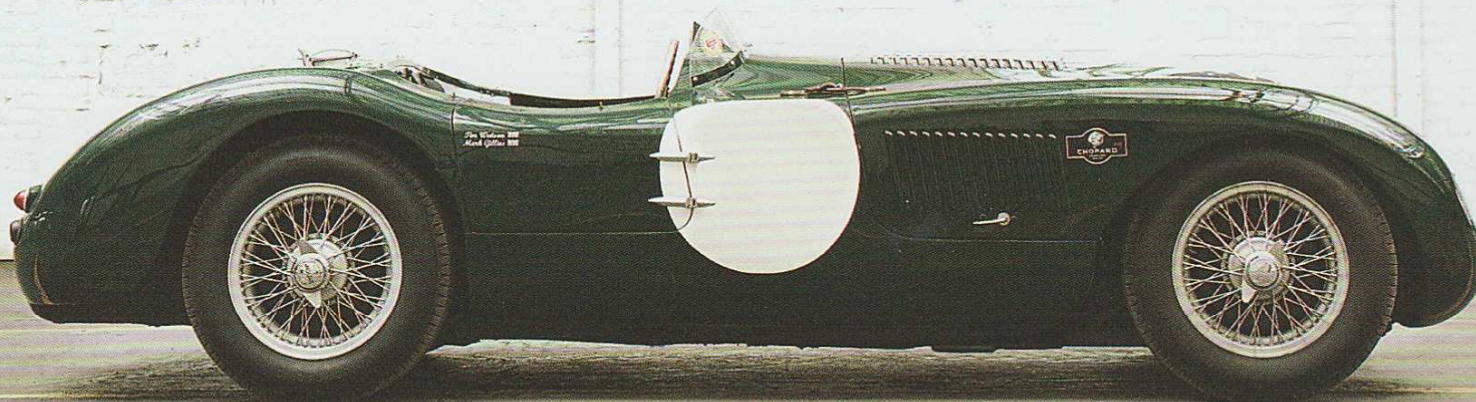

E-type - racier
than anything
else the 60s
could offer

1968

XJ arrives -
Sir William
Lyons's
favourite car

1975

XJ-S takes a
different angle
powered by
Jaguar's silken
V12 engine

HERITAGE

1988+1990

V12 XJ-S was a force to be reckoned with on the track. The V12 gave Jaguar two more wins at Le Mans

1996

Production begins on Jaguar XK8

1998

S-TYPE, an eagerly awaited new model debuts at the Birmingham International Motor Show

2002

X350 XJ features industry leading, lightweight aluminium architecture

2006

XK heralded the new generation Jaguars, leading to XF, XJ, F-TYPE
